

PROTECTOR ARMOR

SPECIFICATIONS

ARMOR LEVEL	IIIA HARD ARMOR PLATE
WEIGHT	3.91 LBS (1.78 KG) FOR 10" X 12"
THICKNESS	0.625 INCHES (15.9 MM)
AVAILABLE SIZES	7" X 10" (17.78 CM X 25.4 CM) 10" X 12" (25.4 CM X 30.5 CM)
FEATURES	TRIPLE CURVE, MULTI-HIT

NIJ QUALIFIED	0101.04 & 0101.06
CALIBER	.44 MAGNUM
# OF SHOTS	6
BULLET TYPE	STEEL JACKET HOLLOW POINT (SJHP)
BULLET WEIGHT	240 GRAINS
VELOCITY	1,451 [FEET PER SECOND (FPS) / 442.3 METERS PER SECOND (MPS)]
BACKFACE (CLAY BACKING)	0.63- 0.71 INCHES (16-18 MM)

ADDITIONAL PROTECTION BUILT-IN

The **Protector Series** hard armor from *Line of Fire, Inc.* provides the law enforcement community with a higher protection level in an everyday armor. Designed specifically to bridge the gap between soft armor and tactical plates, the **Protector Series** hard armor gives law enforcement a new choice that will stop more rounds and rounds from higher caliber weapons. Your job does not permit a time-out and with the **Protector Series** from *Line Of Fire, Inc.* you will have added confidence and capability to execute the mission at hand more safely.

To maximize comfort and endurance, the **Protector Series** hard armor from *Line of Fire, Inc.* features a triple-curve design and the 10" x 12" plates weighs a comfortable 3.91 pounds and 5/8 of an inch thick. Like the **First Responder** and **Tactical Series** armor also manufactured by *Line of Fire, Inc.*, the **Protector Series** hard armor provides the wearer with a comfortable, durable and confidence-building piece of kit that provides superior protection in a wide range of temperature conditions. The **Protector Series** hard armor is waterproof and its ballistic performance is unaffected by either fresh or salt water (subjected to extreme testing—4 hours submerged). **Protector Series** hard armor from *Line of Fire, Inc.*, can take the everyday punishment that comes with the job. The **Protector Series** armor plates can be dropped on the strike face or the edge onto a hard surface from a height of 5' and then stomped on. We protect your Force's most valuable asset—you. Rated by the National Institute of Justice (NIJ) at Level IIIA (0101.06), the **Protector Series** of stand-alone hard armor from *Line of Fire, Inc.* goes beyond its rating to stop 3" magnum slugs, and 5.56x45mm (62-grain Full Metal Jacket) rifle rounds in addition to handgun rounds. In laboratory testing, the standalone **Protector Series** hard armor manufactured by *Line of Fire, Inc.* defeated both the .44 magnum (SJHP, 240 grain at 1,430 ft/s) and the hardened steel Flechette with very minimal backface. Further laboratory testing confirms that the **Protector Series** standalone armor from *Line of Fire, Inc.* is a Level III rated plate at a distance of four hundred meters (400m or 1,312 feet). Through field testing (in conjunction with Level IIA soft armor), the **Protector Series** hard armor from *Line of Fire, Inc.* is also capable of defeating the following calibers:

- 12-gauge 3" magnum slug
- 12-gauge 3" Winchester 1 oz sabot slug
- 7.62x25mm, 55 grain AP Tokeraev
- 9mm, 147 grain (Fired from a MP-5 Sub Machine-Gun)
- 5.56x45mm, 77 grain (Fired from a Sig 552 with a 9" barrel)
- 5.56x45mm, 62 grain (Fired from an AR-15 with a 18" barrel)

The **Protector Series** stand-alone hard armor from *Line of Fire, Inc.* gives law enforcement professionals the tactical advantage of a true multi-hit armor that is exceptionally durable in the real world and that gives them the added confidence needed to succeed.

Multi-hit. Non-fragile. Confidence-building.

**MULTI-HIT.
NON-FRAGILE.
CONFIDENCE-BUILDING.**
